

IADR

International Association
for Dental Research

2021
Annual Report

ABOUT IADR

The **International Association for Dental Research (IADR)** is a nonprofit organization with over 10,000 individual members worldwide. IADR is the premier association for those involved with dental, oral, and craniofacial research across multiple disciplines.

IADR MISSION

Drive dental, oral, and craniofacial research for health and well-being worldwide.

IADR VISION

Oral health for the world through discovery and dissemination.

IADR VALUES STATEMENT

IADR Core Values

Scientific Excellence ▲ Social Responsibility ▲ Scientific Community

Scientific Excellence: IADR values science conducted at the highest possible levels of rigor, innovation and ethics, across disciplines, from discovery science to clinical implementation to global population health.

Social Responsibility: IADR values the pursuit of science to improve health and well-being for all people, to reduce health inequalities and inequities, and proactively takes actions and positions to improve health.

Scientific Community: IADR values a diverse and inclusive scientific workforce, promotes work-life balance, and supports educational activities and mentoring networks to develop the next generation of scientists.

MESSAGE FROM THE PRESIDENT

It is a great honor to serve as President of the International Association for Dental Research, the IADR, during the past year and to further the IADR mission to drive dental, oral, and craniofacial research for health and well-being worldwide.

For the safety of our members, attendees, and staff amidst the global COVID-19 pandemic, the 99th General Session of the IADR, held in conjunction with the 50th Meeting of the AADR and the 45th Meeting of the CADR was a virtual meeting. While we could not gather in person, the 100% virtual format provided scientists and researchers, regardless of location, with the opportunity to present, discuss, and critique their investigations, to view high-quality presentations, and to interact with colleagues online.

IADR, along with the AADOOCR, announced that the *Journal of Dental Research (JDR)* 2-year Journal Impact Factor™ is over 6 for the first time at 6.116, ranking #5 of 91 journals in the "Dentistry, Oral Surgery & Medicine" category, and the *JDR* 5-year Journal Impact Factor™ is over 7 for the first time at 7.199 score, ranking #3 of

91 journals. The *JDR* also ranks #1 of 91 journals in total citations and Eigenfactor, #2 in the new Journal Citation Index, and #3 in Article Influence Score. The 2021 *JDR* special issue was "Interface Between Materials and Oral Biology" which features research reports and critical reviews that highlight the complex interactions occurring between biomaterials and fluids, living cells, and tissues. The *JDR Clinical & Translational Research (JDR CTR)* published four issues in 2021, including important COVID-19 research.

As President of IADR I was proud to represent members at the 2021 joint FDI-IADR-NCDA Virtual Session on oral health to discuss "What the new WHO resolution on oral health means for populations, the oral health community and health systems." The WHO oral health resolution outlines the enduring global burden of the oral diseases, challenges to meeting the oral health needs of populations, regional and international commitment to improving oral health, opportunities to address oral diseases in national and international policy agendas, as well as the priorities of the WHO global oral health program. The foundation of this resolution is evidence-based from multidisciplinary scientific research involving many IADR members. It is imperative that this model of evidence-based decisions carries through to the implementation of the resolution. Actions are proposed to achieve better oral health as part of WHO's NCDs and universal health coverage agendas thereby contributing to the achievements of the United Nations 2030 Sustainable Development Goals. The development of the 2022 global strategy and 2023 global action plan must also be evidence-based. IADR looks forward to working with the WHO to help further define the global strategy and action plan.

Looking ahead, the 100th General Session & Exhibition of the IADR and the 5th Meeting of the IADR Asia Pacific Region will be a virtual event on June 22-25, 2022! The virtual structure is an opportunity to focus on expanding the global reach of our meeting to effectively share our cutting-edge science and stimulate new ideas. The virtual format allows for anyone, regardless of location, to view high-quality presentations and interact with colleagues online.

In 2022, all accepted abstracts will be presented in a new format called Interactive Talks. Interactive Talk presentations provide each speaker with 6 minutes to present their slides and 2 minutes for questions. The Interactive Talks will be organized by topics into 90-minute sessions. This revised format affords a greater opportunity to the IADR Scientific Groups & Network Chairs to organize cohesive and innovative research sessions. We will try this new format for 2022 and seek your feedback to help inform future planning.

IADR is the premier association for dental, oral, and craniofacial research and I see a bright future ahead. I encourage you to stay involved in the IADR as we fulfill the IADR mission and realize the IADR vision of oral health for the world through discovery and dissemination.

Yours sincerely,

A handwritten signature in blue ink that reads "Eric Reynolds". The signature is fluid and cursive, with a long horizontal stroke at the end.

Eric Reynolds, AO FICD FTSE FRACDS
IADR President

MESSAGE FROM THE CHIEF EXECUTIVE OFFICER

Each year, the IADR strives to drive dental, oral, and craniofacial research for health and well-being worldwide. Under the leadership of President Eric Reynolds, an outstanding Board of Directors, and a dedicated staff, IADR was able to provide valuable member benefits and services, while driving dental, oral, and craniofacial research for health and well-being worldwide.

IADR has adapted to the new virtual environment brought on by the global COVID-19 pandemic. The 2021 IADR/AADR/CADR General Session & Exhibition was a virtual event, engaging attendees from 85 countries. We held webinars on the IADR Webinar Connect platform, including cutting-edge COVID-19 presentations to keep our members abreast of the latest research, and held Ask Me Anything events on the IADR Community, where members can discuss hot topics and share insights, as well as network with other members of their IADR Scientific Group/Network all year.

In October, IADR announced the launch of our redesigned website and new member portal—the My IADR Portal! The My IADR Portal includes access to the IADR Community, publications, events, submission sites, and more, and easily connects IADR members to their many benefits.

Other highlights from 2021 include the adoption of the World Health Organization Oral Health Resolution, approved during the 74th World Health Assembly! IADR submitted written comments that emphasized the need for the prioritization of basic, translational, and population oral health research to facilitate significant

improvement in oral health, the need for a comprehensive research agenda to reduce risk factors for cleft lip with and without cleft palate (CL/P), and consideration of the development and implementation of fluoridation programs.

2021 marks the third year that IADR is a NCD Alliance member. IADR joined the NCD Alliance because oral diseases are the world's most prevalent NCDs, resulting in considerable health and economic burdens to populations and share common risk factors. The IADR is now a member of the Global Health Council, a U.S.-based membership organization supporting and connecting advocates, implementers, and stakeholders around global health priorities worldwide. IADR joins SmileTrain as a voice for dental, oral, and craniofacial research and health in the Global Health Council.

After a successful 2021, there is much to look forward to in 2022! I thank all IADR members for their continued support, as well as IADR President Eric Reynolds and the Board of Directors who tirelessly volunteer their time to furthering our mission.

Sincerely,

A handwritten signature in blue ink, reading "Christopher H. Fox". The signature is fluid and cursive, with the first name being the most prominent.

Christopher H. Fox, DMD, DMSc
IADR Chief Executive Officer

HIGHLIGHTS

NEW IADR WEBSITE, MEMBERSHIP PORTAL, AND MEMBERSHIP DATABASE!

In October, the IADR announced the launch of our redesigned website and new member portal—the My IADR Portal! The My IADR Portal includes access to the IADR Community, publications, events, submission sites, and more. The new look and membership database will easily connect IADR members to their many benefits. The new system requires all members to activate their account and create a new account password.

JOURNAL OF DENTAL RESEARCH

Impact Factor

2021 *Journal Citation Reports*™ results for the *JDR*:

- ▲ 2-year Journal Impact Factor™: 6.116, ranking #5 of 91 journals
- ▲ 5-year Journal Impact Factor™: 7.199, ranking #3 of 91 journals
- ▲ Eigenfactor: 0.01683, ranking #1 of 91 journals
- ▲ Total citations: 26,197, ranking #1 of 91 journals
- ▲ Journal Citation Indicator: 2.39, ranking #2 of 91 journals
- ▲ Article Influence Score: 1.726, ranking #3 of 91 journals

Follow the *JDR* on Twitter @JDentRes!

JDR Special Issue: Interface Between Materials and Oral Biology

The *JDR* special issue “Interface Between Materials and Oral Biology” features research reports and critical reviews that highlight the complex interactions occurring between biomaterials and fluids, living cells, and tissues. The Editors of this special issue are Jack L. Ferracane and Luiz E. Bertassoni of the Oregon Health & Science University, Portland, OR, USA.

JDR Article Wins SAGE Publishing 10-Year Impact Award

The *JDR* article “Factors Affecting Wound Healing,” by Shujuan Guo and Luisa A. DiPietro received a 10-Year Impact Award. This article had the second most citations in all SAGE journals from 2010-20.

INTERNATIONAL COLLABORATIONS

WORLD HEALTH ORGANIZATION

An Oral Health Resolution was proposed by several Member States following the WHO Director General (DG) oral health report. IADR submitted written comments that emphasized the need for the prioritization of basic, translational, and population oral health research to facilitate significant improvement in oral health, the need for a comprehensive research agenda to reduce risk factors for cleft lip with and without cleft palate (CL/P), and consideration of the development and implementation of fluoridation programs. The DG oral health report was updated to include two of the three components included in IADR's written intervention. The updated Oral Health Resolution was approved during the 74th World Health Assembly in May 2021. IADR CEO Christopher H. Fox delivered IADR's strong support for the Oral Health Report and Resolution at the WHO 148th session of the Executive Board on January 21, 2021.

MINAMATA CONVENTION ON MERCURY

The Secretariat of the Minamata Convention invited parties and relevant stakeholders to submit comments on their first draft of the Minamata Intercessional document—"Guidance on Monitoring of Mercury and Mercury Compounds to Support the Effectiveness Evaluation of the Minamata Convention." This guidance document was developed as a result of a request by COP-3 of the Secretariat to advance the work to support the effectiveness evaluation by drafting, among others, guidance on monitoring to maintain harmonized, comparable information on mercury levels in the environment (MC 3/10). IADR in collaboration with the American Dental Association has developed a response

to this draft. Our response emphasized our current support for maintaining the availability of encapsulated dental amalgam as the best restorative option when alternatives are less than optimal based on clinical, economic, or practical reasons. IADR indicated that dental material research is ongoing with the ultimate goal of alternative, mercury-free, affordable restorative materials viable for more clinical conditions.

ISO/TC 106 DENTISTRY

IADR Board member Gottfried Schmalz is the Chair of the International Organization for Standardization Technical Committee for Dentistry (ISO/TC 106 Dentistry). ISO is an independent, non-governmental international organization with a membership of 163 national standards bodies. The scope of ISO/TC 106 Dentistry is standardization in oral health care including: terms and definitions, performance, safety and specification requirements of dental product; and clinically relevant laboratory test methods, all of which contribute to improved global health. IADR is a liaison organization to ISO/TC 106 Dentistry and submits a written report, but typically does not send a representative.

NCD ALLIANCE

2021 marks the third year that IADR is a NCD Alliance member. IADR joined the NCD Alliance because oral diseases are the world's most prevalent NCDs, resulting in considerable health and economic burdens to populations and share common risk factors (unhealthy diets high in free sugars, use of tobacco and harmful consumption of alcohol) with the four main NCD's (cardiovascular, respiratory, cancer, and diabetes).

GLOBAL HEALTH COUNCIL

The IADR is now a member of the Global Health Council, a U.S.-based membership organization supporting and connecting advocates, implementers, and stakeholders around global health priorities worldwide. IADR joins SmileTrain as a voice for dental, oral, and craniofacial research and health in the Global Health Council.

FDI WORLD DENTAL FEDERATION

In early 2021, the FDI Vision 2030: Delivering Optimal Oral Health for All was created with the purpose of providing guidance on achieving appropriate, affordable, evidence-based, integrated, and comprehensive oral health care for all. The report identifies challenges that will confront dentistry and the oral health community over the next decade and it proposes strategies for how these can be turned into opportunities to improve oral health, reduce oral health inequalities, and contribute to reducing the global burden of oral diseases. IADR President Eric Reynolds, The University of Melbourne, Australia, spoke at the virtual session "From words to action: What does the new WHO resolution on Oral health mean for populations, the oral health community, and health systems?" co-hosted by FDI World Dental Federation, IADR, and NCD Alliance.

99TH IADR GENERAL SESSION & EXHIBITION

In April 2021, the IADR, AADR, and CADR announced that the 99th General Session of the IADR, held in conjunction with the 50th Meeting of the AADR and the 45th Meeting of the CADR, would be a virtual meeting taking place on July 21-24, 2021. The 100% virtual format provided scientists and researchers, regardless of location, with the opportunity to present, discuss, and critique their investigations, to view high-quality presentations, and to interact with colleagues online.

85

The meeting was virtually attended by **3,507** individuals from **85** countries.

Attendees could choose from among:

- **1,847** poster presentations
- **350** oral presentations
- **27** Focused Learning Sessions
- **14** satellite symposia
- **71** symposia
- **3** Distinguished Lecture Series plenary sessions

32

virtual exhibition booths:

- **7** corporate
- **25** institutional/government/nonprofit

DISTINGUISHED LECTURE SERIES SPEAKERS

Marie A. Bernard
National Institutes of Health (NIH), Chief Officer for Scientific Workforce Diversity Bethesda, MD, USA
"NIH's Scientific Approach to Inclusive Excellence"

Joseph M. DeSimone
Stanford University, CA, USA
"Digital Transformation in Manufacturing to Improve Oral Health"

Kate Pickett
University of York, England
"Inequality Bites: Structural Causes of Inequalities in Wellbeing"

Using the IADR General Session Virtual Experience platform, attendees received online access to all meeting content where they could watch live or view recorded presentations 24-hours a day. Attendees could choose from thousands of research presentations, including the Distinguished Lecture Series, keynote addresses, symposia, and oral and poster presentations, all accessible online.

WEBINARS

IADR WEBINARS

The IADR Webinar Connect platform allows users to participate in upcoming live webinars and view the growing list of webinars on demand. 2021 webinars include:

PERIODONTOLOGY AND THE COVID-19 PANDEMIC

Sponsored by the IADR
Periodontology Research Group
May 17, 2021

Co-Chairs:

- ▲ **David Herrera**, University Complutense, Madrid, Spain
- ▲ **Nagihan Bostanci**, Karolinska Institutet, Stockholm, Sweden

Speakers:

- ▲ *The Role of Saliva in Transmission of SARS-CoV-2 and Relevance in Diagnostic Test*
Saso Ivanovski, The University of Queensland, Herston, Australia
- ▲ *The Association Between Periodontitis and COVID-19 Severity*
Faleh Tamimi, Qatar University, Doha
- ▲ *The Role of Aerosol on the Transmission of Coronavirus and the Impact in Dentistry*
Purnima Kumar, The Ohio State University, Columbus, USA
- ▲ *Are Oral Health Professionals More Likely to Be Exposed to COVID-19?*
Iain Chapple, University of Birmingham, UK

JOURNAL OF DENTAL RESEARCH, JDR CLINICAL & TRANSLATIONAL RESEARCH, AND BRAZILIAN ORAL RESEARCH: A VIEW OF THE EDITORIAL PROCESSES

Sponsored by the IADR
Brazilian Division
June 30, 2021

This webinar provides an overview of the editorial process from submission until the final publication of a paper and outlined the criteria used by editors and reviewers to evaluate the scientific merit of the work.

Speakers:

- ▲ *JDR Editor-in-Chief*
Nicholas Jakubovics, Newcastle University, England
- ▲ *JDR CTR Editor-in-Chief*
Jocelyne Feine, McGill University, Montréal, Québec, Canada
- ▲ President of the IADR Brazilian Division and an Associate Editor of the journal *BOR*, **Paulo Cesar**, University of São Paulo, Brazil

COVID-19 INFECTION RATES AMONG DENTAL PROFESSIONALS: A COMPARISON OF RATES IN NORTH AMERICA AND EUROPE

September 8, 2021

This webinar discussed the emerging evidence from several countries of COVID-19 infection rates in dentists, dental hygienists, and other dental staff as they practice during the pandemic.

Speakers:

- ▲ **Cameron Estrich**, ADA Science and Research Institute, Chicago, IL, USA
- ▲ **Iain Chapple**, University of Birmingham, England
- ▲ **Marco Mazevet**, Les Chirugiens-Dentistes de France, Paris
- ▲ **Sreenath Madathil**, McGill University, Montreal, Quebec, Canada

Reaction panelists:

- ▲ IADR President **Eric Reynolds**, The University of Melbourne, Australia
- ▲ **Amie Dowell**, Chair, Federation of Dental Hygiene Regulators of Canada, Edmonton, Alberta
- ▲ **Gerhard Seeberger**, FDI World Dental Federation President, Cagliari, Italy

Chair:

- ▲ CADR past president **Walter Siqueira**, University of Saskatchewan, Saskatoon, Canada

PROGRAMS

IADR continues to strengthen research efforts and dental research activities through the Adopt-a-Member program and the IADR Regional Development Program.

ADOPT-A-MEMBER

The 2021 Adopt-a-Member program supported 53 members and 41 student members from the following Divisions and Sections: Brazilian Division, Caribbean Section, Chilean Division, Colombian Division, Egyptian Section, Indian Division, Mexican Division, South African Division, and Uruguayan Division. Designed to provide IADR members with the opportunity to support colleagues who did not have the means to become members, the program aims to support oral and dental researchers in developing parts of the world.

To support attendance in challenging times, all IADR Members and IADR Student members from Low, Lower-Middle or Upper-Middle-Income Countries (LMIC) were eligible for a reduced pre-registration fee. This is an expansion of the reduced fee policy to include all members in LMIC's, not just the Region of the General Session. Forty-eight meeting registrations were processed for the 2021 IADR/AADR/CADR General Session & Exhibition.

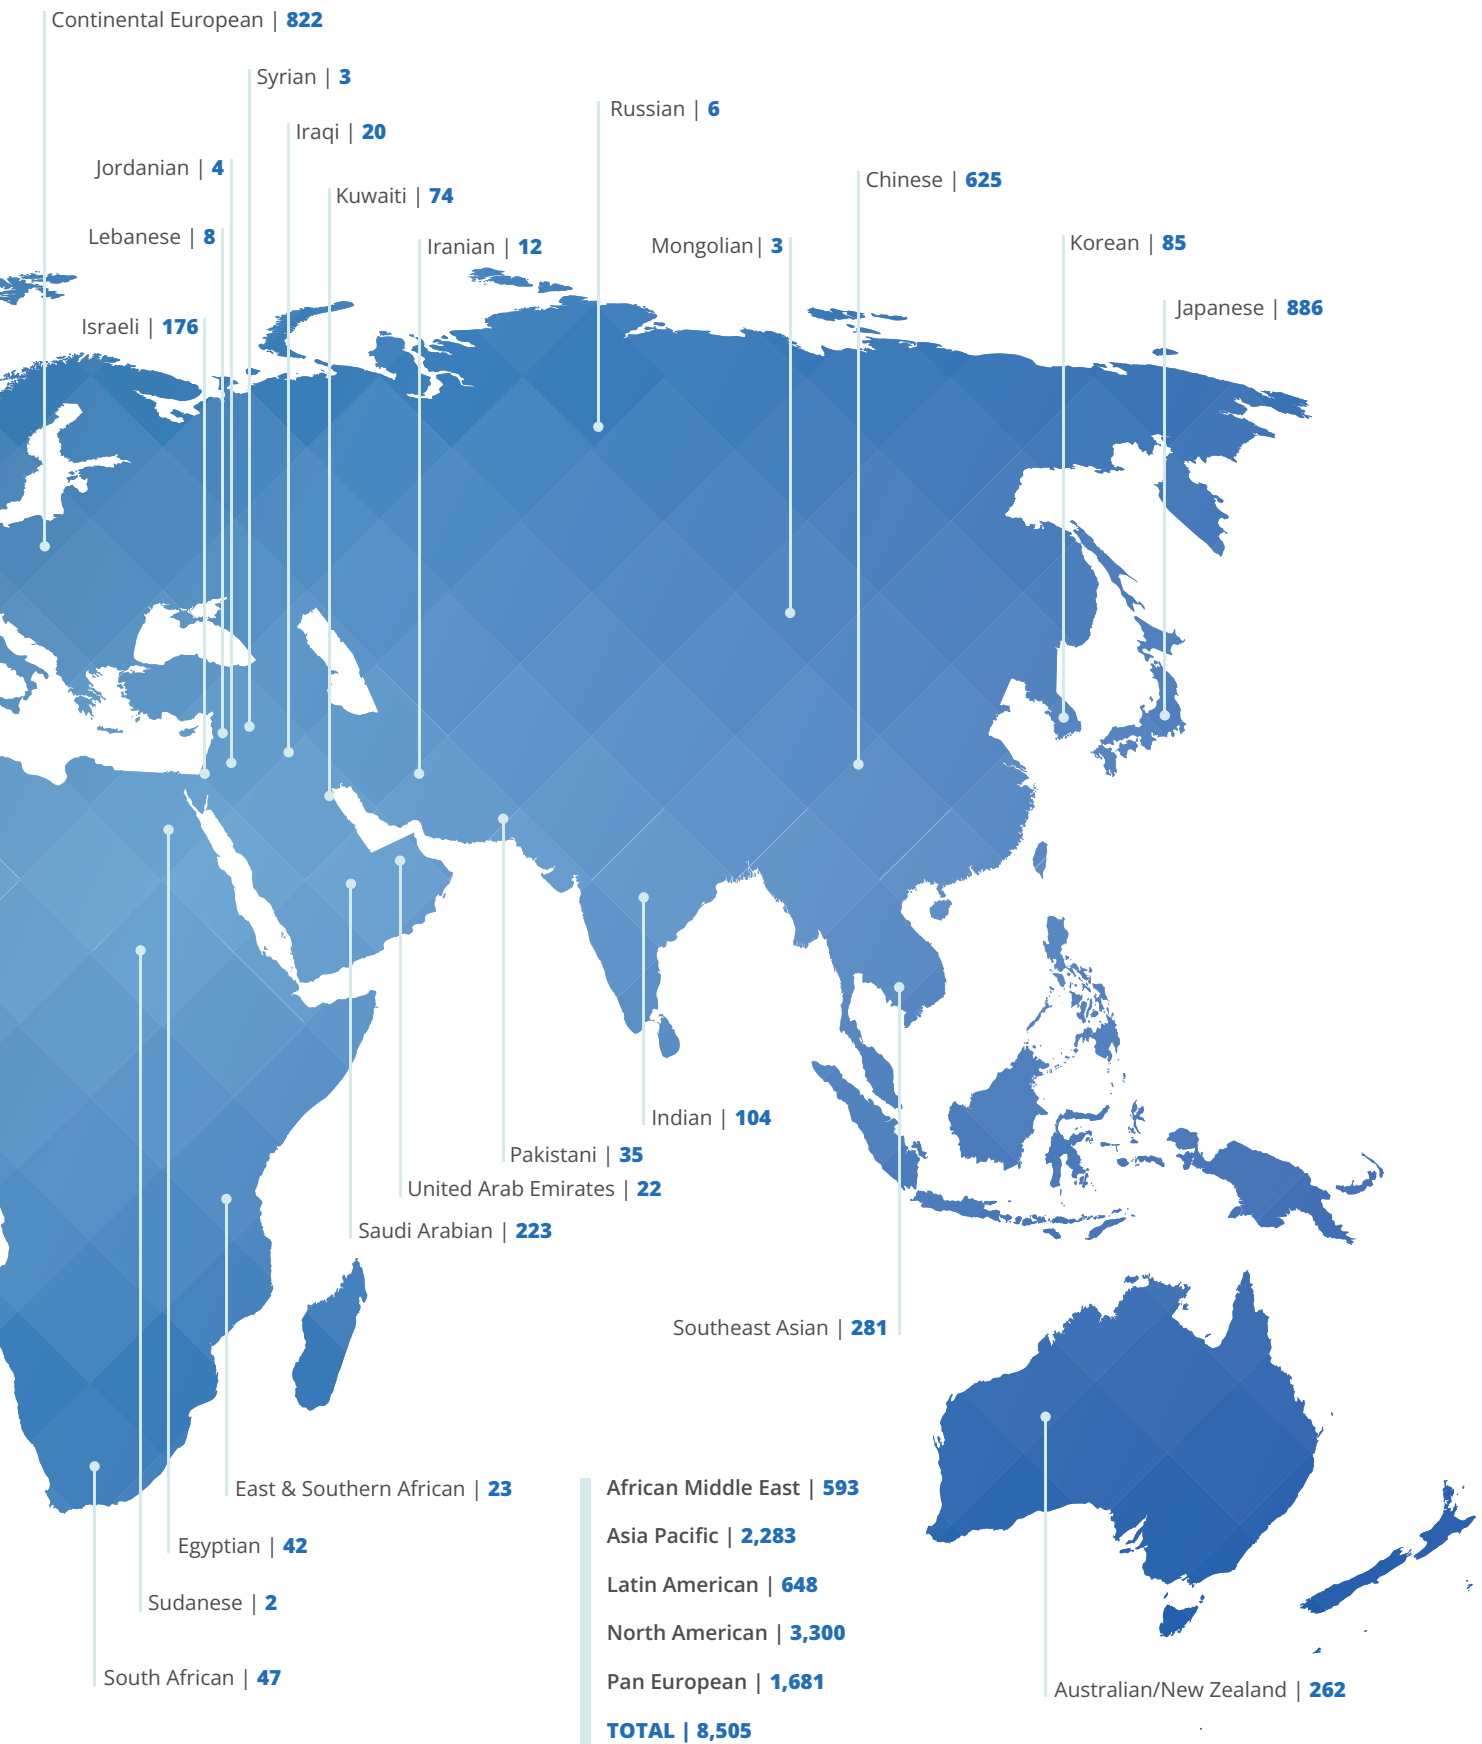

IADR REGIONAL DEVELOPMENT PROGRAM

Since 1996 through 2021, the Regional Development Program has distributed more than \$1.3 million in funding to enhance research capacity and research infrastructure. Three Regional Development Programs were funded in 2021:

- ▲ **IADR Australia/ New Zealand Division**
An mHealth Model for Remote Emergency Assessment and Support of Traumatic Dental Injuries: A Multicenter Feasibility Study
- ▲ **IADR Chilean Division**
Development of Smart Biomaterials to Target Implant-related Infections: Untangling Material-protein-bacteria Interactions
- ▲ **IADR Tunisian Section**
People living with HIV/AIDS: Quality of Life, Orofacial Manifestations and Salivary Biomarkers

2nd Elena Calciolari

Barts and the London
School of Medicine and
Dentistry, UK

IADR KULZER Travel Awards

Supported by KULZER

Lohitha Kalluri

University of Mississippi,
Jackson, USA

Isadora Garcia

Federal University of Rio
Grande do Sul, Brazil

Yehuda Klein

The Hebrew University
of Jerusalem, Israel

Abdulrahman A. Balhaddad

University of Maryland,
Baltimore, USA

Takahiko Sakai

Osaka University, Japan

IADR LION Dental Research Award for Junior Investigators

Supported by Lion Corporation

Behavioral, Epidemiologic and Health Services Research Hazem Abbas

Tohoku University, Sendai, Japan

IADR Osteology Foundation New Investigator Award in Oral Tissue Regeneration

Lauren Katz

University of North Carolina
at Chapel Hill, USA
*The Role of Periostin in
Craniofacial Skeletal
Muscle Regeneration*

IADR Toshio Nakao Fellowship

Supported by GC Corporation

Ting Zou

University of Hong Kong,
SAR, China

IADR Hatton Competition and Awards

Supported by SHOFU, Unilever
and IADR

Junior Category

1st Natalie Atyeo

University of Florida,
Gainesville, USA

2nd Jordan Blum

The University of
Melbourne, Australia

Senior Basic Science Category

1st Shanmukh Peddi

Indian Institute of Science,
Bangalore, India

2nd Zhi Ren

University of Pennsylvania,
Philadelphia, USA

Senior Clinical Research Category

1st Walid Ahmed

Al-Soneidar
McGill University,
Montreal, Canada

2nd Waheed Awotoye

University of Iowa,
Iowa City, USA

IADR/AADOCR Journal of Dental Research Cover of the Year, 2020

Rei Sekiguchi,
Daniel Martin, and
Kenneth Yamada
for the paper
"Single-Cell

RNA-seq Identifies
Cell Diversity in Embryonic
Salivary Glands"
J Dent Res 99(1): 69-78, 2020

IADR/AADOCR William J. Gies Award

Supported by J. Morita Corporation

Biological Research

*Horizontal and Vertical
Transfer of Oral Microbial
Dysbiosis and Periodontal Disease*
Joe Aduse-Opoku, Ahmed
Hashim, Mike Curtis, Mark
Payne, Susan Joseph, Asil
Alsam, William Wade. *J Dent
Res* 98(13):1503-1510, 2019

Biomaterials & Bioengineering

*Functionalized Graphene
Oxide Shields Tooth Dentin
from Decalcification*
Tadashi Yamamoto, Yuta
Nishina, Mohammed Zahedul
Nizami, Shogo Takashiba, Yuki
Shinoda-Ito. *J Dent Res* 99(2):
182-188, 2019

Clinical Research

*Cell-Based Regenerative
Endodontics for Treatment of
Periapical Lesions: A Randomized,
Controlled Phase I/II Clinical Trial.*

COMMITTEES

IADR ANNUAL SESSION COMMITTEE

David Bartlett (2022), (British Division), Chair
Cui Huang (2022), (Chinese Division)
Riva Touger-Decker (2024), (AADOCR)
Paulo Cesar (2024), (Brazilian Division)
Chaminda Seneviratne (2024), (SEA Division)

IADR AWARDS REVIEW COMMITTEE

Masaki Honda (2022), (Japanese Division), Chair
Saul Paiva (2022), (Brazilian Division)
Katherine Leung (2022), (Southeast Asian Division)
Maria Grazia Piacino (2022), (CED)
Oyinkansola Sofola (2022), (Nigerian Division)
Fabian Cieplik (2023), (CED)
Vijay Prakash Mathur (2023), (Indian Division)
Cristina Vidal (2023), (AADOCR)
Ling Ye (2023), (Chinese Division)
Michelle Visser (2024), (AADOCR)

IADR CONSTITUTION COMMITTEE

Omolara Uti (2022), (Nigerian Division), Chair
Gaetano Isola (2022), (CED)
Madhan Balasubramanian (2022), (Indian Division)
Alvaro Della Bona (2023), (Brazilian Division)
Hai Ming Wong (2023), (SEA Division)
Satoru Yamada (2023), (Japanese Division)
Laura Acosta-Torres (2024), (Mexican Division)
Smriti Aryal AC (2024), (UAE Section)
Gabriel Sanchez (2024), (Argentine Division)

IADR DISTINGUISHED SCIENTIST AWARDS

Marco Peres (Global Oral Health) (Australian/New Zealand Division), Chair
Heikki Murtomaa (BEHSR) (Scandinavian Division)
David Bartlett (Pros. & Implants) (British Division)
William Landis (Bio. Mineralization) (AADOCR)
Ophir Klein (Cranio. Biology) (AADOCR)
Daniel Fried (Bowen Award/Caries Res.) (AADOCR)
Jo Frencken (H. Trendley Dean) (CED)
Bei Wu (Geriatric Oral Res.) (AADOCR)

Nisha D'Silva (Oral Med. & Pathology) (AADOCR)

J. Silvio Gutkind (Research in Oral Bio.) (AADOCR)

Panos Papapanou (Res. in Periodontal Research Group Disease) (AADOCR)

John Bartlett (P/T/T Research) (AADOCR)

David Bartlett (Res. in Pros. & Implants) (AADOCR)

Ashraf Fouad (Pulp Biology Research) (AADOCR)

Arjan Vissink (Salivary Research) (CED)

Pamela Yelick (Isaac Schour) (AADOCR)

Junji Tagami (Wilmer Souder) (Japanese Division)

Ariadne Letra (Young Investigator) (AADOCR)

IADR ETHICS IN DENTAL RESEARCH COMMITTEE

Effie Ioannidou (2022), (AADOCR), Chair
Maha Abbas (2022), (Iraqi Division)
Tazuko K. Goto (2023), (Japanese Division)
Olaniyi Taiwo (2024), (Nigerian Division)
Martin Zemel (2024), (Argentine Division)

FDI REPRESENTATIVE

Christopher H. Fox, Chief Executive Officer (IADR)

FDI SCIENCE COMMISSION REPRESENTATIVE

Helen Whelton (Irish Division)

IADR FELLOWSHIPS COMMITTEE

Ana Paula Dias Ribeiro (2022), (AADOCR), Chair
Vesna Miletic (2022), (CED)
Chaminda Seneviratne (2022), (Southeast Asian Division)
Benjamin Chaffee (2024), (AADOCR)
Gianrico Spagnuolo (2024), (CED)
Cynthia Yiu (2024), (SEA Division)

IADR HONORARY MEMBERSHIP COMMITTEE

Helen Whelton (2022), (Irish Division), Chair
Jukka Meurman (2023), (CED)
Angus Walls (2024), (British Division)
Rena D'Souza (2025), (AADOCR)
Paula Moynihan (2026), (ANZ Division)
