

ANNUAL
REPORT
2019

IADR

International Association
for Dental Research

ABOUT IADR

The **International Association for Dental Research (IADR)**, headquartered in Alexandria, Va., USA, is a nonprofit organization with over 10,000 individual members worldwide.

NEW IN 2019: IADR MISSION, VISION, VALUES STATEMENTS

IADR MISSION STATEMENT

Drive dental, oral and craniofacial research for health and well-being worldwide.

IADR Core Values

- ▲ Scientific Excellence
- ▲ Social Responsibility
- ▲ Scientific Community

Scientific Excellence: IADR values science conducted at the highest possible levels of rigor, innovation and ethics, across disciplines, from discovery science to clinical implementation to global population health.

IADR VISION STATEMENT

Oral health for the world through discovery and dissemination.

IADR VALUES STATEMENT

Social Responsibility: IADR values the pursuit of science to improve health and well-being for all people, to reduce health inequalities and inequities and proactively takes actions and positions to improve health.

Scientific Community: IADR values a diverse and inclusive scientific workforce, promotes work-life balance and supports educational activities and mentoring networks to develop the next generation of scientists.

2019 HIGHLIGHTS

2019 IADR/AADR/CADR General Session & Exhibition

Vancouver, BC, Canada on June 19-22, 2019

- ▲ **5,322** attendees from **81** countries
- ▲ **2,672** poster presentations, **724** oral presentations, **26** ePoster discussion presentations
- ▲ **36** Lunch & Learning Sessions, **11** Hands-on Workshops,
- ▲ **72** Symposia, **eight** satellite symposia, **three** Distinguished Lecture Series plenary sessions
- ▲ **71** total exhibition booths: **34** corporate and **45** institutional/government/nonprofit

Journal of Dental Research Centennial

2019 marked the Centennial of the *Journal of Dental Research*. To celebrate, the *JDR* featured a yearlong commemorative article, podcast and Historical Highlights series that featured topics that have transformed dental, oral and craniofacial research over the past 100 years. View the full list of *JDR* Centennial articles online at www.iadr.org/JDRcentennial.

MESSAGE FROM THE PRESIDENT

It has been an honor and a great privilege to serve as President of the International Association for Dental Research during the past year. The IADR continues to be the leading global organization for dental, oral and craniofacial research, continually striving to achieve its Vision.

The year commenced with the IADR and American Association for Dental Research (AADR) announcing in January that each would divest of sugar-sweetened beverage companies from their investment portfolios. Investing in companies that manufacture or distribute (SSBs) or funds that have such holdings is inconsistent with the Missions of IADR and AADR. Further demonstrating IADR's leadership position against (SSBs), the IADR also adopted a Healthy Meeting Policy, and no longer provides (SSBs) at IADR functions.

Another exciting development in June 2019 was the updating of the IADR Mission Statement and the adoption of a new Vision Statement and Values Statement. The new IADR Mission Statement is to 'drive dental, oral and craniofacial research for health and well-being worldwide.' The new IADR Vision Statement is 'oral health for the world through discovery and dissemination.' The new IADR Core Values are 'scientific excellence,' 'social responsibility' and 'scientific community.'

This year the IADR, along with the AADR, announced that the *Journal of Dental Research (JDR)* holds a 2-Year Impact Factor above 5 for the second year at 5.125. The *JDR* continues to rank #1 of 90 journals in the category of "Dentistry, Oral Surgery & Medicine" in Eigenfactor and ranks #2 in Impact Factor and Article Influence. With over 20,000 citations, the *JDR* also boasts the most citations in the category by far, with over 4,500 citations above the second ranked journal in the field.

The 97th General Session of the IADR, held in conjunction with the 48th Annual Meeting of the AADR and the 43rd Annual Meeting of the Canadian Association for Dental Research (CADR), took place in Vancouver, BC, Canada from June 19-22, 2019. Over 5,300 attendees from more than 80 countries gathered to present, discuss and network with others in the field of dental, oral and craniofacial research.

Looking ahead, in 2020 IADR will proudly celebrate its Centennial and highlight the accomplishments of the greatest contributors to oral, dental and craniofacial research worldwide. Planning commenced in 2016 and will continue to ensure an exceptional IADR Centennial celebration in Washington, D.C., USA on March 18-21, 2020.

I encourage you to be an active partner with the IADR to ensure our future success and global relevance as the premier association for dental, oral and craniofacial research.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Paula Moynihan', written over a light grey rectangular background.

Paula Moynihan, Ph.D., R.Nutr., B.Sc.
IADR President

MESSAGE FROM THE CHIEF EXECUTIVE OFFICER

Each year, the International Association for Dental Research (IADR) strives to drive dental, oral and craniofacial research to advance health and well-being worldwide. This year was no exception. Under the leadership of President Paula Moynihan, an outstanding Board of Directors and a dedicated staff, IADR has successfully completed another year of key accomplishments, continuing to further our mission and deliver outstanding membership services.

Highlights within this annual report include the adoption of new IADR Mission, Vision and Values statements, another strong Impact Factor for the *Journal of Dental Research* and a successful 97th General Session of the IADR in Vancouver, BC, Canada.

In 2019, IADR continued collaborations with many international partners. IADR worked in partnership with the FDI World Dental Federation, the NCD Alliance and other oral health associations and industries throughout 2019 on the United Nations High-Level Meeting on Universal Health Coverage. IADR was represented at the 8th World Workshop on Oral Health and Disease in AIDS: Improving Health and Well-being which concluded with attendees accepting the Bali Declaration on Oral Health in HIV/AIDS.

IADR was also a Non-Governmental Organization participant in the United Nations Environmental Program Intergovernmental Negotiating Committee process that resulted in the Minamata Convention on Mercury. IADR submitted a report to prepare for the November 2019 Third Conference of the Parties (COP3) in Geneva, Switzerland.

At the COP3, there was a proposed amendment phase-out dental amalgam by 2021 for children and 2024 for adults. IADR reiterated its support for the phase-down of dental amalgam but IADR emphasized the need, firstly, for increased oral disease prevention efforts to reduce the need for any kind of restorative material. Thanks to the interventions of the World Health Organization, FDI and ADA, IADR and several countries, the amendment was not brought to the floor for approval. Instead, the Conference of the Parties agreed to encourage Parties to take more than the two required measures in Annex A, Part II to continue the phase-down of dental.

IADR has completed another successful year and there is much to look forward to in 2020! I thank all IADR members for their continued support, as well as IADR President Paula Moynihan and the Board of Directors who tirelessly volunteer their time to furthering our mission.

Sincerely,

A handwritten signature in black ink, appearing to read "Christopher H. Fox". The signature is fluid and cursive, written over a white background.

Christopher H. Fox, D.M.D., D.M.Sc.
IADR Chief Executive Officer

2019 HIGHLIGHTS

NEW INVESTMENT SCREEN AGAINST SUGAR-SWEETENED BEVERAGES

IADR and AADR announced that each would divest of sugar-sweetened beverage (SSB) companies from their investment portfolios. While IADR and AADR did not have direct investments in such companies, IADR and AADR switched to investment managers who will screen out any holdings in the sector. Investing in companies that manufacture or distribute sugar-sweetened beverages or funds that have such holdings is inconsistent with the Missions of IADR and AADR.

HEALTHY MEETING POLICY

Further demonstrating IADR's leadership position against SSBs, the IADR adopted a Healthy Meeting policy, following AADR's lead from 2018, and no longer provides SSBs at IADR functions. Other aspects of the Healthy Meeting Policy encourage healthy diets, exercise and sustainability.

CONFERENCE OF THE PARTIES (COP3) TO THE MINAMATA CONVENTION ON MERCURY

IADR participated in the third meeting of the Conference of the Parties (COP3) to the Minamata Convention on Mercury in Geneva, Switzerland, where there was a proposed amendment to the Convention calling for a phase out of dental amalgam by 2021 for children and 2024 for adults. Thanks to interventions of the World Health Organization, the FDI, IADR and several other countries, the amendment was not brought to the floor for approval. Instead, the Parties were encouraged to continue the phase down of dental amalgam and to share information on the availability, technical and economic feasibility, and environmental and health risks and benefits of non-mercury alternatives to dental amalgam.

JDR Clinical & Translational Research was accepted for inclusion in MEDLINE, primary component of PubMed® – a database with over 29 million citations for life sciences and biomedical literature.

Advances in Dental Research

Three issues of *Advances in Dental Research*, an e-Supplement to the *Journal of Dental Research*, were published in 2019.

- ▲ Oral Health Effects of Tobacco Products: Science and Regulatory Policy
- ▲ 9th AADR Fall Focused Symposium: Advances in Precision Oral Health Research
- ▲ IADR's Women Pioneers: Celebrating a Century of Achievement

Journal of Dental Research

- ▲ #1 of 90 journals in the "Dentistry, Oral Surgery & Medicine" category, in Eigenfactor **0.021290**
- ▲ #2 in 2-year Impact Factor with a score of **5.125**, Article Influence with a score of **1.643** and 5-year Impact Factor **5.722**
- ▲ Most citations in the "Dentistry, Oral Surgery & Medicine" category
- ▲ 20,000+ citations, **over 4,500 citations above** the second ranked journal

Source: 2018 *Journal Citation Reports*® (Clarivate Analytics, 2019)

INTERNATIONAL COLLABORATIONS

WHO

The IADR and World Dental Federation issued a Joint Statement at the WHO Executive Board Meeting in January 2019 on implantation of Sustainable Development Goals (SDGs), encouraging Member States to adopt a common risk factor approach when developing and implementing SDG 3.4 strategies to reduce the noncommunicable disease (NCD) burden. Joint Statements were also submitted for the May World Health Assembly.

In March 2019, East & Southern African Regional Board Member Margaret Wandera delivered a presentation at the *Capacity Building Workshop to Develop the National Roadmap for Implementation of the Regional Oral Health Strategy in the African Region* in Brazzaville, Congo. She discussed IADR's role in supporting the Africa Regional Oral Health Strategy.

The IADR has committed technical resources to assist the WHO in implementing the Minamata-related project, *accelerating the early implementation of the phase down of the use of dental project, amalgam to achieve socio-economic, environmental and public health benefits*. This is a pilot program in three countries (Senegal, Thailand and Uruguay) to phase down dental amalgam.

ISO

IADR Board member Gottfried Schmalz is the Chair of the International Organization for Standardization Technical Committee for Dentistry (ISO/TC 106 Dentistry). ISO is an independent, non-governmental international organization with a membership of 163 national standards bodies. The scope of ISO/TC 106 Dentistry is standardization in oral health care including: terms and definitions, performance, safety and specification requirements of dental product and clinically relevant laboratory test methods, all of which contribute to improved global health. IADR is a liaison organization to ISO/TC 106 Dentistry and submits a written report, but typically

does not send a representative. The ISO 2019 meeting was held September 15-20, 2019 in Osaka, Japan. The ISO 2020 meeting will be held on August 23-28, 2020 in San Diego, California, USA.

FDI

Former World Dental Federation President Kathy Kell and Executive Director, Enzo Bondioni, attended the IADR General Session in Vancouver updated the IADR Council on FDI activities. The ADA FDI World Dental Congress was held in San Francisco, California, USA on September 4-8, 2019. At the Congress, IADR past president and past executive director John Clarkson were awarded the Charles Godon Medal of Honour, for oral health professionals who have made an outstanding contribution to the dentistry field. IADR President Paula Moynihan participated in the FDI World Oral Health Forum on Universal Health Coverage. The next FDI World Dental Congress will take place in September 1-4, 2020 in Shanghai, China.

NCD ALLIANCE

Last year was the first full year IADR was an NCD Alliance member. IADR joined the NCD Alliance because oral diseases are the world's most prevalent NCDs, resulting in considerable health and economic burdens to populations and share common risk factors (unhealthy diets high in free sugars, use of tobacco and harmful consumption of alcohol) with the four main NCD's (cardiovascular, respiratory, cancer and diabetes). Membership in the NCD Alliance was invaluable as a resource in the run up to the United Nations High Level Meeting on Universal Health Coverage in September 2019 (see below).

UNITED NATIONS HIGH LEVEL MEETING ON UNIVERSAL HEALTH COVERAGE

IADR worked in partnership with the FDI World Dental Federation, the NCD Alliance and other oral health associations and industries throughout 2019 on the UN HLM on UHC. IADR participated in the multi-

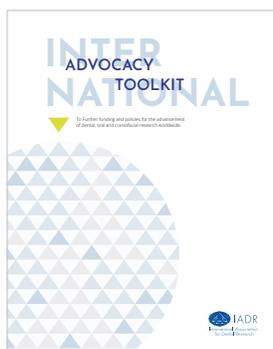

stakeholder meeting in April (Christopher H. Fox) and the HLM in September (Rena D'Souza) and submitted written comments to both stressing the importance of oral health as part of primary health care and universal health coverage. IADR was also present at the New York University, New York, USA side-event on oral health held in conjunction with the UN meeting. In the end, the broader community was proud that the final Political Declaration recognized oral health with the following statement calling on Governments to:

"Also strengthen efforts to address eye health conditions and oral health, as well as rare diseases and neglected tropical diseases, as part of universal health coverage."

WW8 BALI DECLARATION ON ORAL HEALTH IN HIV/AIDS

The 8th World Workshop on Oral Health and Disease in AIDS: Improving Health and Well-being, concluded on Sunday, September 15, 2019 in Bali, Indonesia. The WW8 was organized by University Padjadjaran, Mahasaraswati University, Udayana University, University of California San Francisco, King's College London, Queen Mary University of London and IADR. It concluded with attendees accepting the Bali Declaration on Oral Health in HIV/AIDS. The organizers also plan to publish the proceedings of the workshop and further information about the proceedings will be forthcoming.

AADR was the recipient of NIH/NIDCR R13 conference grant that assisted with travel funds for 25 new investigators from low- and middle-income countries so that they could attend the workshop and present their research. Funding for this conference was made possible (in part) by Grant 1R13DE28504-01A1 by the National Institute of Dental and Craniofacial Research. In addition to the scientific content, which will be published in 2020, the WW8 culminated in the Bali Declaration on Oral Health in HIV/AIDS highlighting the need to eliminate the stigma of HIV/AIDS.

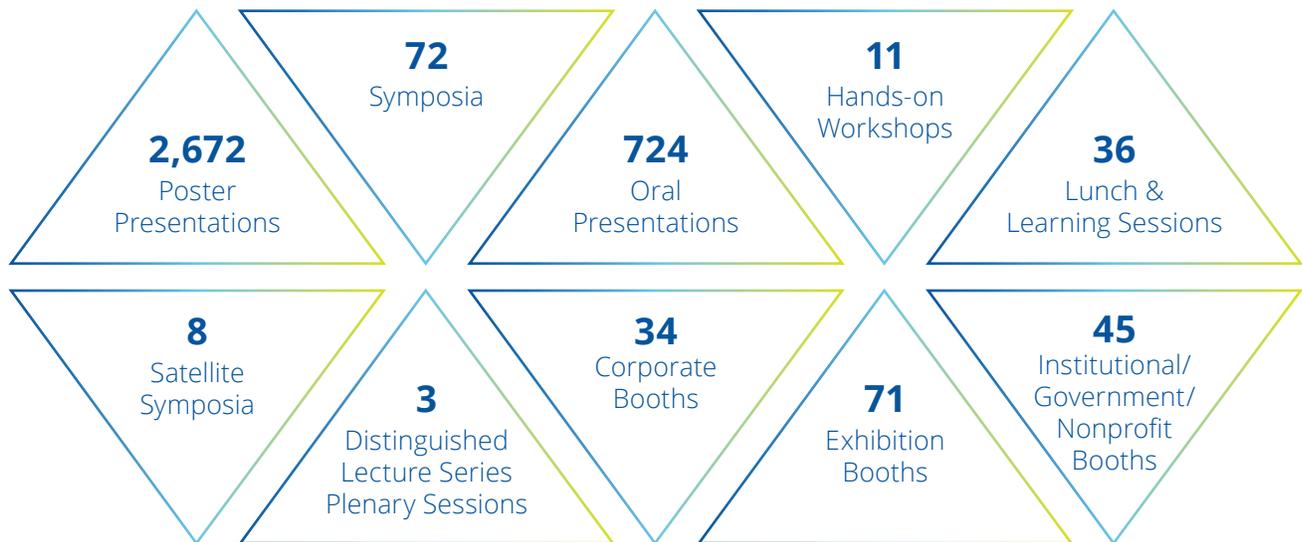

To assist IADR members throughout the world in their advocacy efforts, IADR launched the International Advocacy Toolkit, which discusses the components of developing advocacy and communications campaigns. The Toolkit empowers IADR members to champion dental, oral and craniofacial research and to support funding and policies that contribute to scientific advancement.

2019 IADR/AADR/CADR GENERAL SESSION & EXHIBITION

Vancouver, BC, Canada on June 19-22, 2019

5,322 attendees / 81 countries

Distinguished Lecture Series

LEE HOOD

CARRIE BOURASSA

Noojimo Mikana (A Healing Path): Research as Reconciliation

GARY KOBINGER

Innovative Methods of Vaccination in the Context of Infectious Disease Outbreaks

The legacy of the *JDR* was honored during a celebration at the 2019 IADR/AADR/CADR General Session & Exhibition in Vancouver.

RESEARCH BREAKTHROUGHS

EFFECTS OF STARCH ON ORAL HEALTH: SYSTEMATIC REVIEW TO INFORM WHO GUIDELINE

K. Halvorsrud, J. Lewney, D. Craig, P.J. Moynihan

J Dent Res 98: 46-53

A systematic review was conducted to update evidence on the effect of total dietary starch and of replacing rapidly digestible starches (RDSs) with slowly digestible starches (SDSs) on oral health outcomes to inform updating of World Health Organization guidance on carbohydrate intake. The best available evidence suggests that only RDS adversely affects oral health.

THE MUTATIONAL PROFILE OF UNICYSTIC AMELOBLASTOMA

K. Heikinheimo, J.-M. Huhtala, J.-M. Huhtala, A. Thiel, K.J. Kurppa, H. Heikinheimo, M. Kovac, C. Kragelund, G. Warfvinge, H. Dawson, K. Elenius, A. Ristimäki, D. Baumhoer, P.R. Morgan

J Dent Res 98: 54-60

BRAF V600E is the most common mutation in conventional ameloblastoma (AM) of the mandible. In contrast, maxillary AMs appear to harbor more frequently RAS, FGFR2 or SMO mutations. AMs without BRAF V600E mutations were associated with an increased rate of local recurrence ($P = 0.0003$), which might indicate that routine mutation testing also has an impact on prognosis.

CHITOSAN-BASED EXTRAFIBRILLAR DEMINERALIZATION FOR DENTIN BONDING

L.S. Gu, X. Cai, J.M. Guo, D.H. Pashley, L. Breschi, H.H.K. Xu, X.Y. Wang, F.R. Tay, L.N. Niu

J Dent Res 98: 186-193

Instability of resin-dentin bonds is the Achilles' heel of adhesive dentistry. The new chitosan-based extrafibrillar demineralization strategy retains intrafibrillar minerals, reduces endogenous protease-initiated collagen degradation, prevents water permeation within hybrid layer and kills bacteria on dentin surfaces, which are crucial factors for enhancing resin-dentin bond durability.

DUAL-TARGETING APPROACH DEGRADES BIOFILM MATRIX AND ENHANCES BACTERIAL KILLING

Z. Ren, D. Kim, A.J. Paula, G. Hwang, G. Hwang, Y. Liu, J. Li, H. Daniell, H. Koo

J Dent Res 98: 322-330

Cariogenic biofilms are structured microbial communities embedded in an extracellular matrix that affords bacterial adhesion-cohesion and drug tolerance, making them difficult to treat using conventional antimicrobial monotherapy. These findings demonstrate a dual-targeting approach that can enhance antibiofilm efficacy and precision by dismantling the EPS matrix and its protective microenvironment, amplifying the killing of pathogenic bacteria within microbial biofilms.

THE SALIVA METABOLOME IN ASSOCIATION TO ORAL HEALTH STATUS

C. Liebsch, V. Pitchika, C. Pink, S. Samietz, G. Kastenmüller, A. Artati, K. Suhre, J. Adamski, M. Nauck, H. Völzke, N. Friedrich, T. Kocher, B. Holtfreter, M. Pietzner

J Dent Res 98: 642-651

Altered cellular metabolism of host and microbes releases a number of intermediary end products known as metabolites. Across all age groups, the bacterial metabolite phenylacetate was significantly associated with periodontal status. The results revealed alterations of the salivary metabolome in association with age and oral health status. Among the comprehensive panel of metabolites, periodontitis was significantly associated with the bacterial metabolite phenylacetate, a promising substance for further biomarker research.

ASSOCIATION BETWEEN MEDICAL WELL-CHILD VISITS AND DENTAL PREVENTIVE VISITS: A BIG DATA REPORT

T. Tiwari, N. Rai, A. Brow, E.P. Tranby and S.G. Boynes

JDR Clinical & Translational Research 4: 239-245

Results of this study indicate that increasing and promoting the inclusion of oral health within primary care can increase the likelihood of preventative dental visits and, ultimately, better dental health in children.

AN ECONOMIC EVALUATION OF A COMPREHENSIVE SCHOOL-BASED CARIES PREVENTION PROGRAM

S.S. Huang, R.R. Ruff, R. Niederman

JDR Clinical & Translational Research 4: 378-387

Policy makers can use the results of this study to understand economic evaluations of school-based caries prevention programs and what factors to consider when deciding what programs to implement.

SCIENTIFIC GROUPS & NETWORKS

Through the IADR Scientific Groups & Networks, members are able to collaborate with leading researchers in 32 specialized fields.

- ▲ Behavioral, Epidemiologic and Health Services Research Group
- ▲ Cariology Research Group
- ▲ Clinical and Translational Science Network
- ▲ Craniofacial Biology Group
- ▲ Dental Anesthesiology Research Group
- ▲ Dental Materials Group
- ▲ Diagnostic Sciences Group
- ▲ e-Oral Health Network
- ▲ Education Research Group
- ▲ Evidence-based Dentistry Network
- ▲ Geriatric Oral Research Group
- ▲ Global Oral Health Inequalities Research Network
- ▲ Implantology Group
- ▲ International Network for Orofacial Pain and Related Disorders Methodology (INFORM)
- ▲ Microbiology/Immunology Group
- ▲ Mineralized Tissue Group
- ▲ Network for Practice-based Research Group
- ▲ Neuroscience Group
- ▲ Nutrition Research Group
- ▲ Oral and Maxillofacial Surgery Group
- ▲ Oral Health Research Group
- ▲ Oral Medicine and Pathology Group
- ▲ Orthodontics Research Group
- ▲ Pediatric Oral Health Research Group
- ▲ Periodontal Research Group
- ▲ Pharmacology/Therapeutics/ Toxicology Group
- ▲ Prosthodontics Group
- ▲ Pulp Biology and Regeneration Group
- ▲ Salivary Research Group
- ▲ Stem Cell Biology
- ▲ Student Training and Research (STAR) Network
- ▲ Women in Science Network

PROGRAMS

IADR continues to strengthen research efforts and dental research activities through the Adopt-a-Member Program, the Meeting Dividend Program and the Regional Development Program.

ADOPT-A-MEMBER

The 2019 Adopt-a-Member program supported 82 Members and 40 student members from the following Divisions and Sections:

- ▲ Brazilian
- ▲ Caribbean
- ▲ Chinese
- ▲ Costa Rican
- ▲ East & Southern Africa
- ▲ Egyptian
- ▲ Indian
- ▲ Nigerian
- ▲ Southeast Asian

IADR members donate to fund membership for oral health researchers in developing countries.

MEETING DIVIDEND PROGRAM

In 2019, \$169,201 was distributed to 28 IADR Divisions including the American, Argentine, Australian/New Zealand, Brazilian, British, Canadian, Chilean, Chinese, Colombian, Continental European, East and Southern African, Indian, Iranian, Iraqi, Irish, Israeli, Japanese, Korean, Kuwaiti, Mexican, Nigerian, Peruvian, Saudi Arabian, Scandinavian, South African, Southeast Asian, Uruguayan and Venezuelan Divisions.

Each Division had representation at the IADR General Session & Exhibition in Vancouver, BC, Canada and received at least \$1,000. The program offers additional funds that can be used at the Divisional level to develop membership and encourage research.

IADR REGIONAL DEVELOPMENT PROGRAM

Three Regional Development Programs were funded in 2019: Mentor Mentee Program Version 2.0:

- ▲ Nurturing Young Dental Researchers in IADR Southeast Asian Division to the Southeast Asian Division
- ▲ Multi-country implementation of an observatory of Early Childhood Caries (ECC) to Adolescence for the Latin American Region – (Phase II) to the Argentinian and Peruvian Divisions
- ▲ Building a Network Through IADR to Nurture and Translate First Nations and Health Research to the Australian/New Zealand Division

From 1996-2019, the program has distributed more than \$1 million in funding to enhance research capacity and research infrastructure.

AWARDS

IADR funded and administered \$623,317 in awards and fellowships in 2019.

- ▲ IADR/AADR William J. Gies Award
- ▲ IADR/AADR *Journal of Dental Research* Cover of the Year, 2018
- ▲ IADR Academy of Osseointegration Innovation in Implant Sciences Award
- ▲ IADR Colgate Research in Prevention Travel Award
- ▲ IADR David B. Scott Fellowship
- ▲ IADR Distinguished Scientist Award
- ▲ IADR Distinguished Service Award
- ▲ IADR E.W. Borrow Memorial Award
- ▲ IADR Honorary Member
- ▲ IADR Innovation in Oral Care Award
- ▲ IADR John Gray Fellowship
- ▲ IADR Joseph Lister Award for New Investigators
- ▲ IADR KULZER Travel Award
- ▲ IADR Lion Dental Research Award
- ▲ IADR STAR Network Academy Fellowship
- ▲ Three Minute Thesis (3MT®) Competition
- ▲ IADR Toshio Nakao Fellowship
- ▲ IADR Unilever Hatton Competition and Award

IADR/AADR William J. Gies Award

The award in the **Biomaterials and Bioengineering Research** category is presented to K. Nam, C-S. Wang, C. L. Maruyama, P. Lei, S. Andreadis and O. J. Baker for the paper "L1 Peptide-Conjugated Fibrin Hydrogels Promote Salivary Gland Regeneration," *J Dent Res* 96: 798-806.

The award in the **Clinical Research** category is presented to I.G. Chestnutt, R. Playle, S. Hutchings, S. Morgan-Trimmer, D. Fitzsimmons, N. Aawar, L. Angel, S. Derrick, C. Drew, C. Hoddell, K. Hood, I. Humphreys, N. Kirby, T.M.M. Lau, C. Lises, M.Z. Morgan, S. Murphy, J. Nuttall, K. Onishchenko, C. Phillips, T. Pickles, C. Scoble, J. Townson, B. Withers and B.L. Chadwick for the paper "Fissure Seal or Fluoride Varnish? A Randomised Trial of Their Relative Effectiveness," *J Dent Res* 96: 754-761.

The award in the **Biological Research** category is presented to S. Jia, J. Zhou, Y. Wee, M.L. Mikkola, P. Schneider and R.N. D'Souza for the paper "Anti-EDAR Agonist Antibody Therapy Resolves Palate Defects in Pax9^{-/-} Mice," *J Dent Res* 96: 1282-1289.

IADR/AADR *Journal of Dental Research* Cover of the Year, 2018

The *JDR* Cover of the Year, 2018 award is presented to E. Couve, M. Lovera, K. Suzuki and O. Schmachtenberg for "Schwann Cell Phenotype Changes in Aging Human Dental Pulp," *J Dent Res* 97: 347-355.

MEMBERSHIP

REGIONAL REPORTS

IADR has 28 Divisions and 17 Sections that comprise five Regions. IADR is organized into Regions for purposes of more effective and efficient delivery of IADR Member Services. Divisions are formed when a nation, or group of geographically related nations, with 50 or more members is approved by Council. Sections can be formed with 10 or more members. All Divisions and Sections are within one of the five Regions. IADR's organizational structure is best poised to promote research around the world and grow membership.

AFRICA/MIDDLE EAST REGION

- ▲ East & Southern Africa Division
- ▲ Iranian Division
- ▲ Iraqi Division
- ▲ Kuwaiti Division
- ▲ Nigerian Division
- ▲ Saudi Arabian Division
- ▲ South African Division
- ▲ Egyptian Section
- ▲ Jordanian Section
- ▲ Lebanese Section
- ▲ Libyan Section
- ▲ Sudanese Section
- ▲ Syrian Section
- ▲ Tunisian Section
- ▲ United Arab Emirates Section

The IADR Saudi Arabian Division participated in the King Abdulaziz University 5th International Dental Conference in Jeddah, Saudi Arabia on October 21-24, 2019. The IADR Saudi Arabian Division Unilever Hatton Competition also occurred during this meeting.

Members of the African and Middle East Region held a meeting at the IADR/AADR/CADR General Session & Exhibition in Vancouver, BC, Canada. At this meeting members pledged to make an active contribution to the regional research agenda in the coming years.

ASIA/PACIFIC REGION

- ▲ Australian/New Zealand Division
- ▲ Chinese Division
- ▲ Indian Division
- ▲ Japanese Division
- ▲ Korean Division
- ▲ Southeast Asian Division
- ▲ Mongolian Section
- ▲ Pakistani Section

The 4th Meeting of the IADR Asia Pacific Region, in conjunction with the IADR Australian/New Zealand Division Annual Meeting, IADR Chinese Division Annual Meeting, IADR Japanese Division Annual Meeting, IADR Korean Division Annual Meeting and IADR Southeast Asian Division Annual Meeting, was held November 28-30, 2019 at the Brisbane Convention and Exhibition Centre, Queensland, Australia.

The 5th Meeting of the IADR Asia Pacific Region will be held on November 26-27, 2020 in Bangkok, Thailand.

LATIN AMERICAN REGION

- ▲ Argentine Division
- ▲ Brazilian Division
- ▲ Chilean Division
- ▲ Colombian Division
- ▲ Peruvian Division
- ▲ Uruguayan Division
- ▲ Venezuelan Division
- ▲ Caribbean Section
- ▲ Costa Rican Section
- ▲ Ecuadorian Section
- ▲ Guatemalan Section
- ▲ Panamanian Section
- ▲ Paraguayan Section

The 1st IADR Caribbean Section and Dominican College of Dentists Annual Meeting was held in Santo Domingo, Dominican Republic on October 3-4, 2019. The IADR Costa Rican Section Annual Meeting was held on August 28, 2019 during the National Research Award meeting of the Costa Rican National Dental Association, in San Jose, Costa Rica. During this event, different members of IADR participated as judges. IADR Latin American Region President Jaime Castellanos, 2020 served as a lecturer and judge.

NORTH AMERICAN REGION

- ▲ American Division
- ▲ Canadian Division
- ▲ Mexican Division

The AADR and CADR held their annual meeting in conjunction with the IADR General Session. The Mexican Division held their meeting in May 2019 and selected competitors for the IADR Hatton Competition.

PAN EUROPEAN REGION

- ▲ British Division
- ▲ Continental European Division
- ▲ Irish Division
- ▲ Israeli Division
- ▲ Scandinavian Division
- ▲ Russian Section

The IADR Continental European Division (CED-IADR) together with the IADR Scandinavian Division (NOF) held the Oral Health Research Congress in Madrid, Spain on September 19-21, 2019. The 2020 PER-IADR Congress will be held in Marseille, France on September 10-12, 2020.

The 2019 Annual Meeting of the British Division of IADR (British Society for Oral and Dental Research BSODR) was held in Leeds, England from September 3-5, 2019. The meeting showcased the latest dental, oral and craniofacial research from undergraduate students, postgraduate students, other early career researchers, academics and industry. The meeting attracted approximately 235 delegates and 158 abstracts, oral and poster, across a wide range of oral and dental disciplines.

Net Assets, Beginning of Year	13,897,741	667,441	14,565,182	12,330,018
Net Assets, End of Year	\$12,598,331	\$817,192	\$13,415,523	\$14,565,182

FUTURE INITIATIVES & MEETINGS

In 2020, IADR proudly celebrates its Centennial!

View 100 years of inspiring IADR history, stories from IADR members and the groundbreaking research that will shape the next century on the new IADR Centennial website, www.iadr100.org. Travel through 100 years of innovation, progress and pioneering research with the IADR Centennial timeline and share your story of dedication and discovery.

JDR Clinical & Translational Research Launches New Cover

In 2020 the JDR Clinical & Translational Research will launch a new cover to better demonstrate the relationship of clinical and translational research and its applications.
